关于超群 ABOUT CHAOQUN

广州市超群塑业有限公司成立于2005年，专注于日化包装领域，深耕乳液泵头、泡沫泵头及泵芯系列产品超过20年。公司集产品研发、模具开发、注塑生产、装配制造与出口贸易于一体，致力于为全球客户提供稳定、专业、高品质的泵类包装解决方案。

依托12,000平方米现代化化工厂、60余台注塑机及逾120名员工的制造基础，超群构建了从设计开发到生产交付的完整配套体系。同时，公司在浙江余姚设有分工厂，进一步完善华东地区生产与供应布局，提升订单承接、配套生产及交付响应能力。

凭借工贸一体的运营优势，公司可快速响应不同客户在规格、颜色、功能与配套上的多样化需求，广泛服务于洗发水、沐浴露、护发素、洗手液、身体乳等日化洗护包装领域。

面向国际市场，超群始终坚持以稳定品质、专业服务与长期合作为导向，不断提升产品竞争力与交付能力，持续为客户创造更高效、更可靠的包装价值。

Founded in 2005, Guangzhou Chaoqun Plastic Industry Co., Ltd. has specialized in personal care packaging for more than 20 years, focusing on lotion pumps, foam pumps and pump core series. Integrating product development, mold making, injection molding, assembly manufacturing and export trade, we are committed to providing professional and reliable pump packaging solutions for global customers.

With a 12,000 m² manufacturing facility, over 60 injection molding machines and more than 120 employees, Chaoqun has built a complete production and supply system. The company also operates a branch factory in Yuyao, Zhejiang, further strengthening its production layout, supply capability and delivery response for customers.

With integrated manufacturing and trading capabilities, we provide customized pump packaging solutions for shampoo, body wash, conditioner, hand wash and body lotion products.

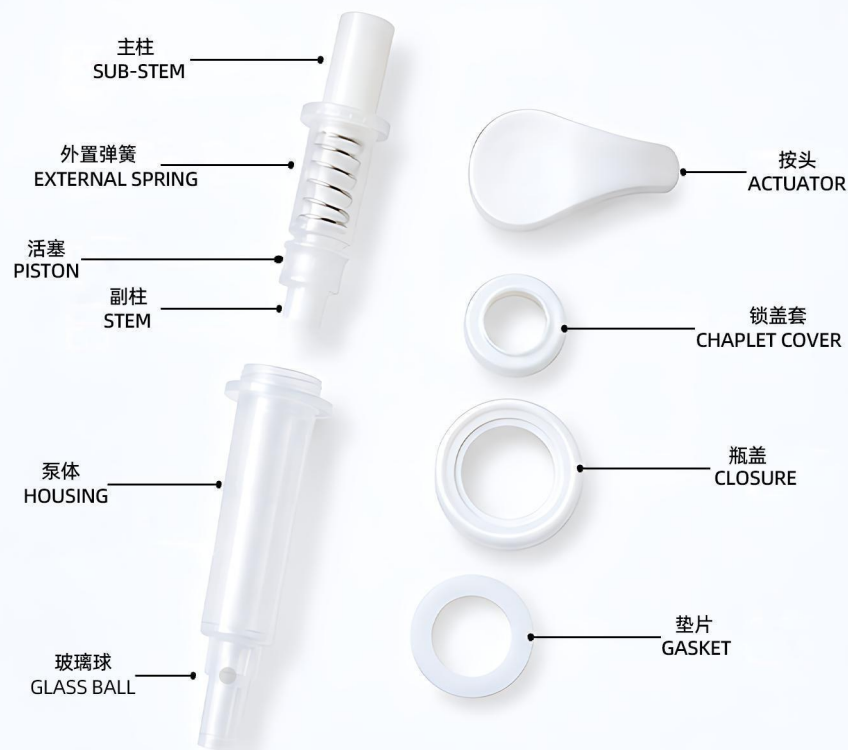

外置弹簧乳液泵头

EXTERNAL SPRING LOTION PUMP

外置弹簧结构将金属弹簧置于液体接触区域之外，有助于降低内容物与弹簧接触带来的污染与锈蚀风险。适用于洗护肤及其他日化包装产品，提升泵头洁净性、出液稳定性与长期使用可靠性。

The external spring structure keeps the metal spring away from the liquid-contact area, helping reduce contamination and corrosion risks caused by formula contact. It is suitable for personal care and daily chemical packaging, improving hygiene, dispensing stability and long-term reliability.

产品结构|PRODUCT STRUCTURE

外置弹簧 / External Spring

Keeps spring away from liquid to reduce contamination risks.

稳定出液 / Stable Dispensing

Optimized structure ensures smooth and stable output.

顺畅按压 / Smooth Actuation

Reliable rebound delivers a smooth pressing experience.

广泛适配 / Wide Compatibility

Fits multiple neck sizes and various bottle types.

202系列外置弹簧乳液泵头

202 Series External Spring Lotion Pump

202系列外置弹簧乳液泵头适用于洗发水、沐浴露、护发素、洗手液及乳液等日化包装。产品采用外置弹簧结构设计，可有效减少弹簧与液体直接接触，降低污染风险，提升使用安全性与稳定性。整体外观简洁流畅，按压顺畅，出液均匀，适配多种瓶型，并支持颜色、规格及配套方案定制，满足不同市场与客户需求。

The 202 Series external spring lotion pumps are suitable for shampoo, body wash, conditioner, hand wash and lotion packaging. The external spring structure helps reduce contamination risks caused by contact between the spring and the liquid, while delivering stable dispensing and smooth actuation. This series fits multiple bottle types and supports customized colors, specifications and matching solutions.

201系列内置弹簧乳液泵头

201 Series Internal Spring Lotion Pump

201系列内置弹簧乳液泵头适用于洗发水、沐浴露、护发素、洗手液及乳液等日化包装。产品采用内置弹簧结构，外观简洁一体，按压顺畅，出液稳定，适配多种瓶型，可支持颜色、规格及包装配套方案定制。

The 201 Series Internal Spring Lotion Pump is suitable for daily chemical packaging such as shampoo, shower gel, conditioner, hand wash, and body lotion. Designed with an internal spring structure, it offers a clean and integrated appearance, smooth pressing performance, stable dispensing, and good compatibility with various bottle types. Colors, specifications, and matching packaging solutions can be customized.

外置弹簧泵芯规格展示

External Spring Pump Core Options

外置弹簧泵芯提供多种规格选择，出液稳定顺畅，兼容性佳，
外置弹簧结构将弹簧与液体通道分离，降低污染风险。

External spring pump cores are available in multiple sizes,
offering stable dispensing and strong compatibility. The separated
spring design helps reduce contamination risk.
